

As I walk the road each day one foot in front of the other I wonder, where is God in the midst of this covid-19 crisis that has the world in turmoil. In the stillness of time and space the magpies warble, the gum tree branches sway, the sheoak tree sings quietly and those gloomy clouds linger in the sky creating interesting shapes. As I continue to walk I see the sun in the distance creating a circle of light through the clouds and pink hues stretch across the horizon.

God appears before me and I feel a sense of reassurance and hope. Joy fills my heart and I feel His everlasting presence. God is near. God is always near even when I don't know it. God is everywhere I go. During these times of isolation, fear and uncertainty draw me back to the road Lord and give me the assurance of your LOVE. Help me to look up and see the circle of light, Father, Son and Holy Spirit.
