

A. Prayer from Jenny

Father, Son & Holy Spirit, we know that you have your plans for each one of us, plans that may not be our plans and may one day, surprise us. Imbue each one of us with your Spirit so that we are ready to joyfully receive your plans and your surprises. Thank you for all your good gifts as we journey through this historic year of bushfires, floods and sickness. We thank you too for our experiences that are not what we see as "good" — only you can change our hearts to see that everything you send us is for our ultimate good. Help us to be aware of ways in which we can help others at this time, and make us willing to change our plans in order to be led by you.

Thank you for your never-ending love, grace and blessing, and for the assurance that we are yours here on earth, and forever in eternity. Thank you for your amazing gifts of your Spirit and your Son Jesus. Amen
